Diversity events

Diversity & inclusivity is at the very heart of our recruitment events. Whether you are looking to equalize your company's gender balance or recruit talent currently underrepresented in your organisation, we can ensure the reach of your target audience.

Women in Engineering & Technology

Established in 2016 our annual diversity events have empowered women to pursue their career aspirations despite the gender imbalance within those sectors.

We aim to reduce the gender gap and increase both gender and ethnic parity in the STEM industry amongst Gen Z.

This year's hybrid event will celebrate inspiring women, welcome leading employers, deliver practical employability workshops, offer live networking with employers and skills coaches. The event is free to attend on 6th November 2024.

If you employ students & graduates into engineering or technology roles & would like to promote your organisation as an employer of equality & diversity to over 200,000 students across 100 UK universities, then join us live & virtual to showcase your company & role models.

- Reach over 250,000 students.
- Engagement with 300 academics.
- Reaching out to 100 universities.
- Talent pipeline of 1500 candidates.
- A live audience of 1000 (approx) students.
- Engagement & hires.

“Yesterday I attended Women in Engineering and came away feeling very inspired! All speakers spoke passionately about their varied & exciting careers, it left me feeling very optimistic about my future as a female engineer.”

A great event - I really enjoyed that it was targeted specifically at women. The skills sessions were really useful for me, especially as I have NOW applied for the Rolls Royce summer internship scheme.

How employers can get involved

Keynote speakers (15 mins)	£1,500+VAT
Skills workshop (20 mins)	£1,500+VAT

School-leaver events

Early talent engagement is key. We know the perfect blend of content & interactivity to ensure that our school-leaver events have high impact and leave a memorable impression!

Employer Events

We source the best-fit institutions to reach out to on your behalf, liaise with schools and academics directly, screen and personally invite candidates to attend, data capture, host, and catering, as well as work with you to plan and deliver an excellent insights workshop in person, hybrid and virtually.

"I've realised that IBM is a very diverse, welcoming community and that the work ranges from very technical to business and finance."

"I am more likely to look for job opportunities at IBM."

"From this event I have learnt the environment IBM had so it is very interesting and love what they offer."

IBM Careers Workshop

- 30 target schools shortlisted
- 398 students registered their interest
- 142 screened candidates accepted
- 81 Year 12 & 13 girls attended that met the target criteria.

Virtual in school events

We work with employers and institutions to deliver high-quality & relevant insights into different industries, offering career advice and soft skills advice from organisations that employ young people.

The events are streamed virtually to increase inclusivity and allow all school and college pupils to attend. We welcome schools, teachers & students to attend virtually in the classroom to learn insights into different industries and hear from a diverse range of employers. The events are also available for all to view on demand, allowing teachers access to follow-up activities to cover with their pupils.

REGULAR & RESERVE

Many opportunities to promote your organisation from:

-  From a 5 minute video stream to a 1 hour live feature
-  A day in the life of video
-  Ask the employer 30 minutes - Live or pre-recorded
-  CV workshop - apprenticeship or graduate level
-  Panel discussion - up to 4 members, 30 minutes
-  Postgraduate engineering courses
-  A virtual tour of your workplace / university

PRICES START AT £500

A man with a beard and dark hair, wearing a dark suit, white shirt, and patterned tie, is standing at a podium and speaking. He is gesturing with his right hand. The background is a blurred audience of people sitting in rows, suggesting a lecture hall or conference setting. The entire image is overlaid with a semi-transparent orange rectangle that contains the text.

Academic Influencing

Whether you're looking to increase your apprenticeship or graduate applications, invite candidates to a webinar, or open day, we can help get your information to the right target audience! We reach out to schools, colleges, universities, faculties, lecturers, tutors, and course administrators on your behalf to provide useful information about your company, career opportunities, how to apply for your roles, application tips, deadline dates, etc. This method of communication is incredibly effective as the students are informed about your opportunity via their teachers and will respond faster.

Academic Influencing

Campus Media has an established working relationship with all UK universities. We identify the best academic contacts to reach out to for every campaign that we deliver. By working with the university academics, we are able to reach more students directly with key information about your company, job opportunities, and events to ensure high engagement, attendance, or applications.

Case Study

Norton Rose Fulbright approached us to target hard-to-reach faculties at Russell Group universities to share information about their careers and an upcoming competition they were hosting. 21 academics shared the communication with their students, resulting in 6,408 students engaging with the employer.

Brand Ambassadors

We employ hundreds of student brand ambassadors at universities across the UK who were instrumental in deploying our events on campus. Our BAs are fantastic at generating pre-event awareness and inviting fellow students along to find out more. Not only do our campaigns deliver an ROI, but some also win awards.

*“Most innovative campus campaign”
at The TargetJob Awards for Credit Suisse*

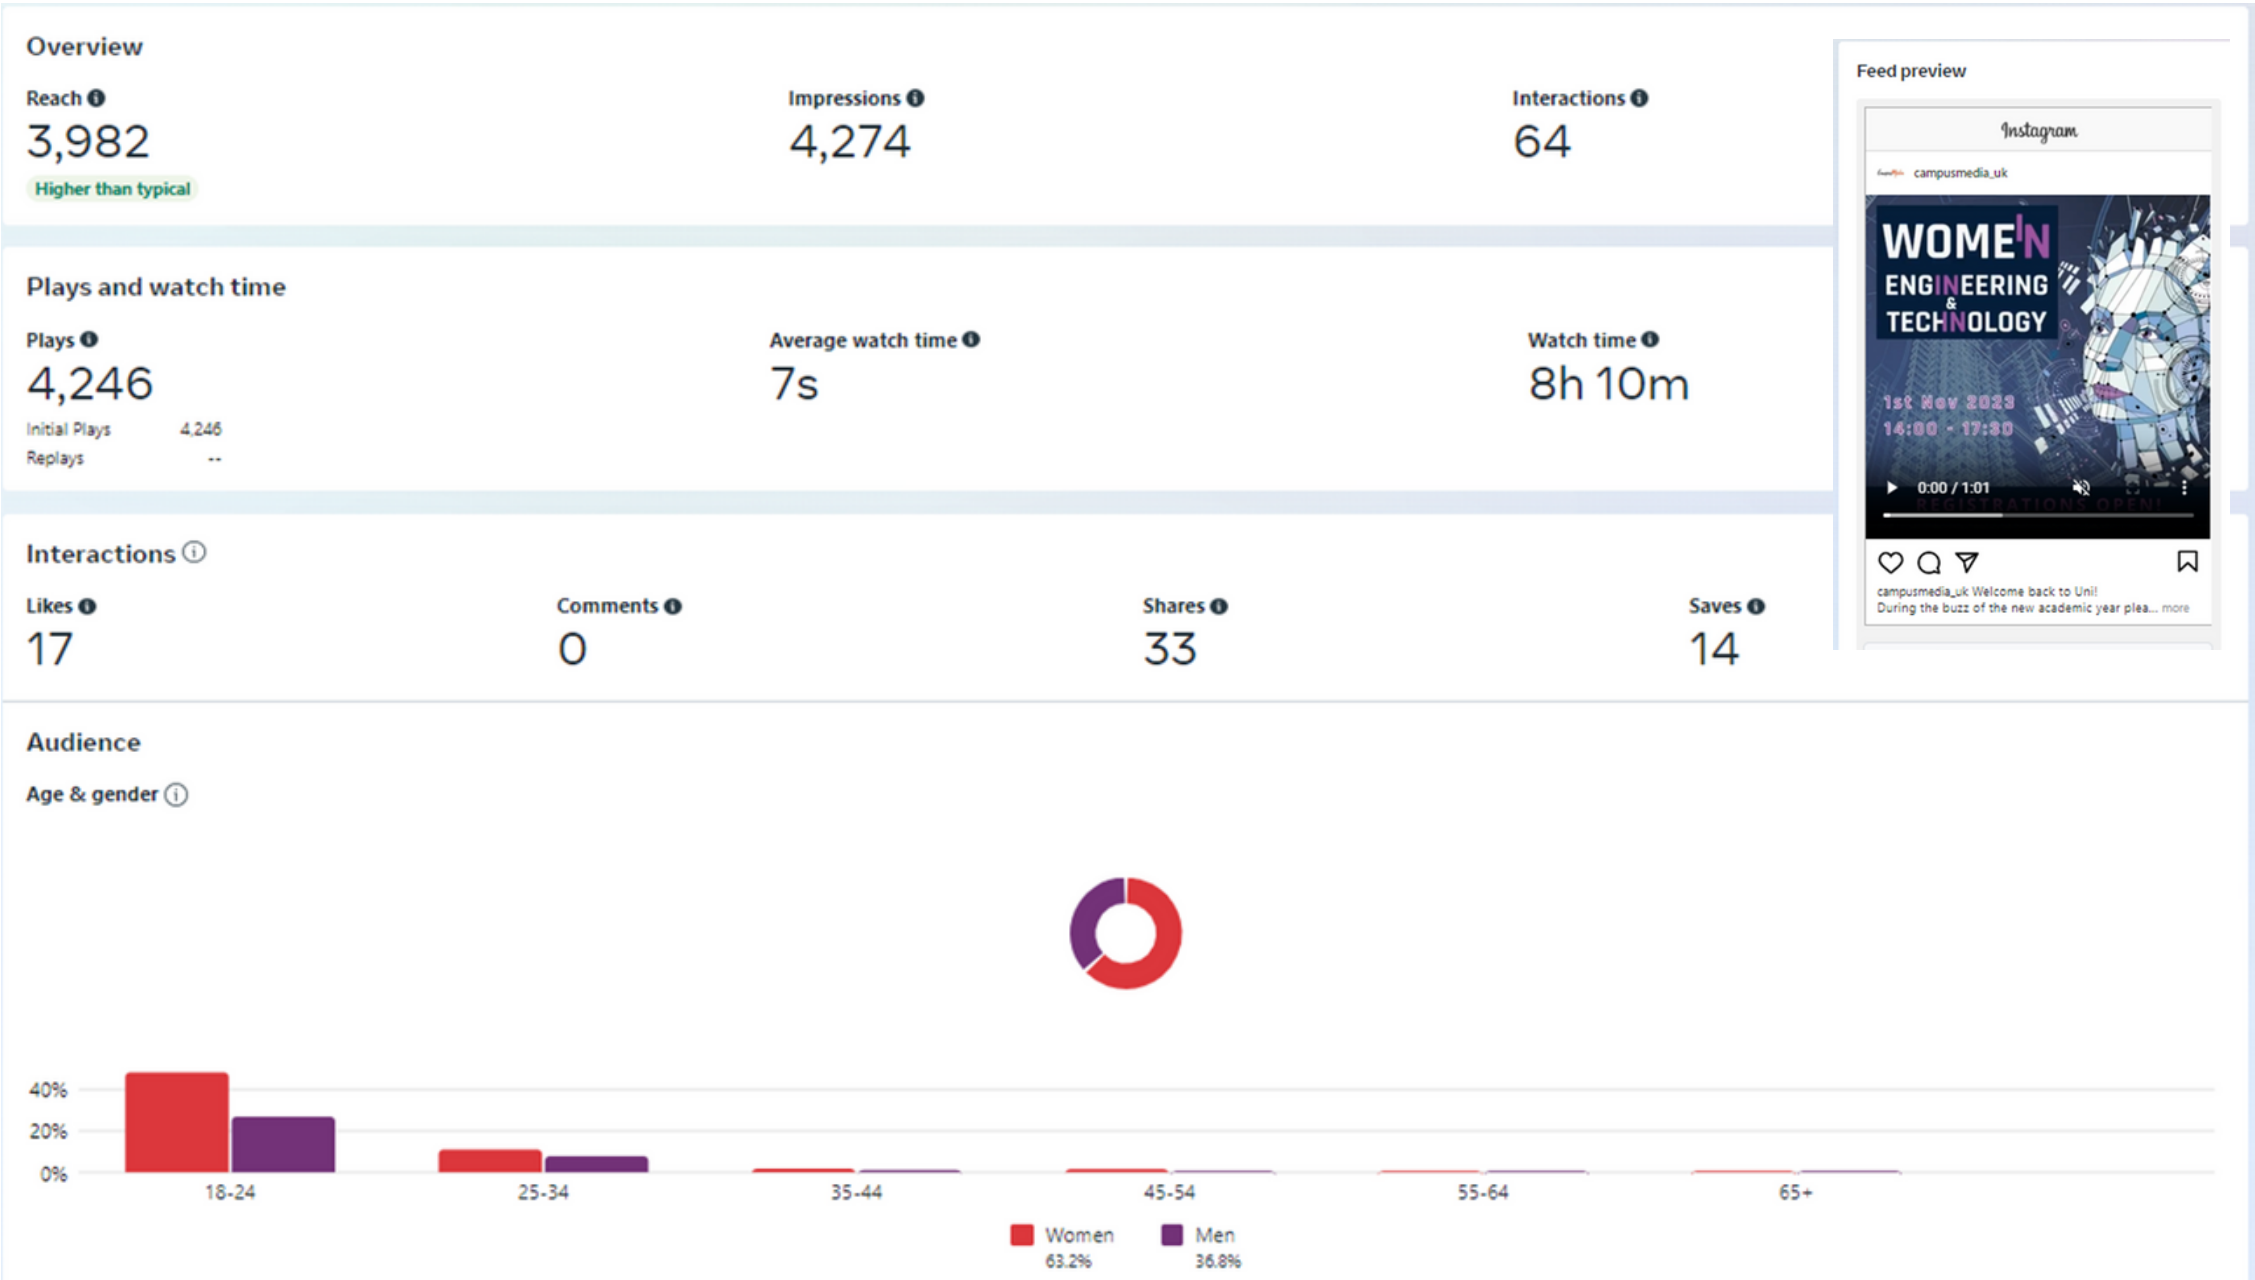

Social Seeding

Get students to share your news, events, or competitions on their personal social feeds with their friends. They can also target relevant closed groups and societies that are likely to have a high % of your target audience in them.

Social Seeding

Campus Media employs student Brand Ambassadors to promote our client campus events in the days leading up to an event, during & after, ensuring a high footfall and engagement in your campaign.
